

April 20, 2008

Robert,

Just wanted to take a moment and thank you for the outstanding diligence and exemplary professionalism you portrayed at the Marriott North Fort Lauderdale and Renaissance Hotel Boca Raton projects. Your immediate response to all RFI's and permit comments (and how very few permit comments there always seem to be!) are always appreciated on such fast track projects.

I also wanted to thank you for correcting & resending all the minor field and as-built changes in such record time at Marriott North and Renaissance. Your timely attention to such time-constrained matters contributed to two more successful projects.

I have worked with many architects throughout the past thirteen years, but it is always refreshing to see your company's name on a set of drawings, as I know the due diligence for such difficult projects are always addressed by you personally, prior to permit submission to any municipality.

Looking forward to working with you again on the ADA project this summer at Marriott North.

Kind regards,

A handwritten signature in black ink, appearing to read 'Dennis Dolan'.
